

Date: 28 March 2022

## NOTICE

Following are the certificate courses that will be offered during the **academic year 2022-23** by L. S. Raheja School of Architecture for the students enrolled in the 5 years full time **B. Arch.** program.

| List of Certificate Courses (A. Y. 2022-23) |                      |  |          |          |
|---|----------------------|--|----------|----------|
| Sr. No.                                     | Course Code          | Course Name  | Semester | Duration |
| 1   | BARE121 ELECTIVES SR | Architectural Sketching & Rendering                  | I        | 12 Week  |
| 2   | BARE221 ELECTIVES AB | AutoCAD Basics                                       | II       | 12 Week  |
| 3   | BARE321 ELECTIVES AS | Architectural Softwares- AutoCAD and SketchUP        | III      | 14 Week  |
| 4   | BARE421 ELECTIVES RB | Revit Basics   | IV       | 12 Week  |
| 5   | BARE521 ELECTIVES RR | Revit & Rhino  | V        | 16 Week  |
| 6   | BARE621 ELECTIVES GI | GIS Basics   | VI       | 16 Week  |
| 7   | BARE721 ELECTIVES GL | Effective use of Glass in the Built Environment      | VII      | 12 Week  |
| 8   | BARE921 ELECTIVES AL | Advanced Landscape                                   | IX       | 12 Week  |
| 9   | BARE921 ELECTIVES CM | Introduction to Construction Management              | IX       | 16 Week  |
| 10  | BARE921 ELECTIVES ER | Earthquake Resistant Architecture and Passive design | IX       | 12 Week  |
| 11  | BARE921 ELECTIVES HC | Heritage Conservation                                | IX       | 12 Week  |

The interested students can apply for these courses by contacting certificate course coordinator **Ar. Anmol Warang** or **respective class incharges of the semester** before **15 April 2022**. The certificate of completion\* shall be issued by the institute for the students after successful completion of course.

**L. S. RAHEJA SCHOOL OF ARCHITECTURE**

**RULES AND REGULATIONS FOR THE CERTIFICATE COURSES OFFERED FOR FIVE YEARS FULL TIME B.ARCH. PROGRAM**

**A. Eligibility Criteria**

1. Participants should be bonafide students of L. S. Raheja School of architecture and has an active enrollment status in the five years full time B. Arch Program.
2. Participants should be in the semesters of studies as a fresh attempt. (i.e. repeaters and/or ATKT students are not eligible for the participation in certificate course program)
3. Repeater and/or ATKT students are eligible to attend the certificate courses.

**B. Certificate Course Completion Criteria**

1. Participants should maintain minimum of 75% of attendance
2. Participants should score at least 50% marks in all the assignments
3. Participants should fulfill criteria B1 and B2 in one attempt only.
4. Participants who will not fulfill the criteria B1 and B2 shall not be granted a certificate of completion. However, after upgradation of the work such participants shall receive sessional marks and due course credits.
5. Participants who fall under the criteria A3 shall not be granted a certificate of completion. However, such participants shall receive sessional marks and due course credits.

**L. S. RAHEJA SCHOOL OF ARCHITECTURE****Details of Certificate Courses for Academic Year 2022-23**

|  |   |          |          |
|--|---|----------|----------|
| Course Code  | BARE121 ELECTIVES SR                                      |          |          |
| Course Name  | <b>Sketching &amp; Rendering</b>                          |          |          |
| Course Instructor  | Ar. Meghana Patil, Ar. Anuj Gudekar, Ar. Shraddha Palande |          |          |
| Year of Studies  | 1st Year B. Arch  | Semester | I        |
| Max. no. of Students   | 90  | Duration | 12 Weeks |
| Course Content   |   |          |          |
| The core intent of the course is to encourage visualisation and observation in the everyday object. The chosen object was further disassembled to understand the mechanism and fixity. |   |          |          |
| Expected Outcomes  |   |          |          |
| The assembly of the chosen object was illustrated as an exploded isometric view. In addition the components were rendered based on the materials and textures                          |   |          |          |

|   |                       |          |          |
|---|-----------------------|----------|----------|
| Course Code   | BARE221 ELECTIVES AB  |          |          |
| Course Name   | <b>AutoCAD Basics</b> |          |          |
| Course Instructor   | Ar. Gargi Karve       |          |          |
| Year of Studies   | 1st Year B. Arch      | Semester | II       |
| Max. no. of Students  | 90                    | Duration | 12 Weeks |
| Course Content  |                       |          |          |
| The Electives is intended to introduce for the first time, a software - AutoCAD which performs as a drafting aid to Architect & designers in their academic and professional life. Not only the interface and commands are part of the subject, but also methodologies of optimising time and precision which are important to be developed from the beginning are an essential part of the syllabus. |                       |          |          |
| Expected Outcomes   |                       |          |          |
| The students at the end of the course are expected to be able to use the software in design and other subjects and develop their skills during the course.  |                       |          |          |

|   |  |          |          |
|---|--|----------|----------|
| Course Code   | BARE321 ELECTIVES AS                                 |          |          |
| Course Name   | <b>Architectural Softwares- AutoCAD and SketchUP</b> |          |          |
| Course Instructor   | Ar. Deepa Desai, Ar. Ninad Sansare                   |          |          |
| Year of Studies   | 2nd Year B. Arch                                     | Semester | III      |
| Max. no. of Students  | 85   | Duration | 14 Weeks |
| Course Content  |  |          |          |
| Learning architectural softwares is an essential skill set for contemporary architectural practices. Learning AutoCAD for the complex architectural drafting and SketchUP for the digital 3D form modulation enhances the creative ability of architectural students to understand space. This course aims to study basic and advanced commands for AutoCAD and SketchUP. |  |          |          |
| Expected Outcomes   |  |          |          |
| Students are expected to produce computer aided 2D and 3D drawings for a small residential house designed in their previous semester.   |  |          |          |

Bombay Suburban Art and Craft Education Society's  
**L. S. RAHEJA SCHOOL OF ARCHITECTURE**

|  |                      |          |          |
|--|----------------------|----------|----------|
| Course Code  | BARE421 ELECTIVES RB |          |          |
| Course Name  | <b>Revit Basics</b>  |          |          |
| Course Instructor  | Ar. Gargi Karve      |          |          |
| Year of Studies  | 2nd Year B. Arch     | Semester | IV       |
| Max. no. of Students   | 85                   | Duration | 14 Weeks |
| Course Content   |                      |          |          |
| The construction industry has moved from computational designs to BIM. The course is designed to expose the students to Revit, a BIM software and use it in subjects such as Design & Working Drawing. The interface, basic commands and process of modelling are part of the Electives program. |                      |          |          |
| Expected Outcomes  |                      |          |          |
| Learning how to draft and model in Revit during this course and practising the same in other subjects for the next semesters, the students are expected to cultivate their knowledge in the software and implement the same during their professional career.                                    |                      |          |          |

|  |                          |          |          |
|--|--------------------------|----------|----------|
| Course Code  | BARE521 ELECTIVES RR     |          |          |
| Course Name  | <b>Revit &amp; Rhino</b> |          |          |
| Course Instructor  | Ar. Gargi Karve          |          |          |
| Year of Studies  | 3rdYear B. Arch          | Semester | V        |
| Max. no. of Students   | 90                       | Duration | 16 Weeks |
| Course Content   |                          |          |          |
| Along with continuing learning more commands in Revit, introduction to Parametric architecture through Rhino and Grasshopper is the essence of this course. The Subject allows students to explore forms using Rhino and basics of Grasshopper coding. |                          |          |          |
| Expected Outcomes  |                          |          |          |
| The students are expected to design and create unique forms using Rhino and should be able to draft the details using Revit. Both the software will help them elevate their design, drafting and Graphics skills.                                      |                          |          |          |

|   |                      |          |          |
|---|----------------------|----------|----------|
| Course Code   | BARE621 ELECTIVES GI |          |          |
| Course Name   | <b>GIS Basics</b>    |          |          |
| Course Instructor   | Rama Shivalkar       |          |          |
| Year of Studies   | 3rdYear B. Arch      | Semester | VI       |
| Max. no. of Students  | 90                   | Duration | 16 Weeks |
| Course Content  |                      |          |          |
| A geographic information system (GIS) is a system that creates, manages, analyses, and maps all types of data. GIS connects data to a map, integrating location data (where things are) with all types of descriptive information (what things are like there). In this course students will learn how to use basic functions of GIS for architectural and urban mapping. |                      |          |          |
| Expected Outcomes   |                      |          |          |
| Students are expected to produce maps of a given area by using GIS software.  |                      |          |          |

Bombay Suburban Art and Craft Education Society's  
**L. S. RAHEJA SCHOOL OF ARCHITECTURE**

|  |  |          |          |
|--|--|----------|----------|
| Course Code  | BARE721 ELECTIVES GL                                   |          |          |
| Course Name  | <b>Effective use of Glass in the Built Environment</b> |          |          |
| Course Instructor  | Ar. Mridula Pillai, Ar. Anuj Gudekar                   |          |          |
| Year of Studies  | 4th Year B. Arch                                       | Semester | VII      |
| Max. no. of Students   | 70   | Duration | 12 Weeks |
| Course Content   |  |          |          |
| <p>Understanding the manufacturing process of glass , so as to understand the embodied energy in its manufacture.<br/>           Factors affecting the choice of Glass in the built environment through the point of view of various stakeholders.<br/>           Understand the Mechanical, Thermal &amp; optical properties of glass.<br/>           Understanding the Value Addition to the Glass- Tints, Coatings, fretting, toughening and lamination.<br/>           Understanding the Glazing types.<br/>           Energy Performance of Coated Glass for various Glazing types and comparison with the ECBC standards.<br/>           understanding the choice and assembly of glazing type through LBNL's Window software.</p> |  |          |          |
| Expected Outcomes  |  |          |          |
| <p>Students are taught to choose the glazing type for various climatic conditions, based on the data available through the LBNL's Window software.<br/>           Using the data set from the above mentioned exercise is further used to analyse the performance in a conventional building using the spreadsheet calculations. These calculations take into account a Window to Wall Ratio (WWR) for all the cardinal directions. In addition these parameters are isolated to check the change in the building performance for the cooling loads.</p>   |  |          |          |

|  |                           |          |          |
|--|---------------------------|----------|----------|
| Course Code  | BARE921 ELECTIVES AL      |          |          |
| Course Name  | <b>Advanced Landscape</b> |          |          |
| Course Instructor  | Ar. Swanand Mahashabde    |          |          |
| Year of Studies  | 5th Year B. Arch          | Semester | IX       |
| Max. no. of Students   | 20                        | Duration | 12 Weeks |
| Course Content   |                           |          |          |
| <p>This elective introduces students to advanced theories and concepts in landscape design and landscape planning and encourages students to research on site and city related concerns.</p> |                           |          |          |
| Expected Outcomes  |                           |          |          |
| <p>Students conduct individual and collaborative research on smaller topics along with analytical studies on maps and diagrams.</p>  |                           |          |          |

Bombay Suburban Art and Craft Education Society's  
**L. S. RAHEJA SCHOOL OF ARCHITECTURE**

|   |  |          |          |
|---|--|----------|----------|
| Course Code   | BARE921 ELECTIVES CM                           |          |          |
| Course Name   | <b>Introduction to Construction Management</b> |          |          |
| Course Instructor   | Ar. Meghana Patil                              |          |          |
| Year of Studies   | 5th Year B. Arch                               | Semester | IX       |
| Max. no. of Students  | 20   | Duration | 16 Weeks |
| Course Content  |  |          |          |
| <ol style="list-style-type: none"> <li>1. Roles and responsibilities of a construction manager</li> <li>2. Project delivery methods, types of projects and scales of projects.</li> <li>3. Management of money, time, men, material and machinery.</li> <li>4. Learning about various planning techniques, PERT &amp; Critical Path Method (CPM)</li> <li>5. Risk evaluation, mitigation and management</li> <li>6. Learning about bids, negotiations and tendering methods</li> <li>7. The importance of avoiding and learning from mistakes. Impact of global and national policies on project planning and business</li> </ol> |  |          |          |
| Expected Outcomes   |  |          |          |
| Students form groups of 4-6 students each. Each group selects a small/medium-scale live architectural/ interior execution project for study. They are to identify all the discussed factors that a Construction manager deals with; within their projects and represent the information graphically. They shall analyse and present aspects of time, money, man management, material and machinery assessment.  |  |          |          |

|  |   |          |          |
|--|---|----------|----------|
| Course Code  | BARE921 ELECTIVES ER  |          |          |
| Course Name  | <b>Earthquake Resistant Architecture and Passive design</b> |          |          |
| Course Instructor  | Ar. Sachin Prabhu   |          |          |
| Year of Studies  | 5th Year B. Arch  | Semester | IX       |
| Max. no. of Students   | 20  | Duration | 12 Weeks |
| Course Content:  |   |          |          |
| <p>Understanding of Earthquake, Why Earthquakes on planet Earth? Measurements of Earthquake shakings, Analysis of Last Century Earthquakes in India, Understanding effect of Earthquakes on buildings with respect to their strength. Design strategies to make Earthquake Resistant buildings. Load bearing structures in Bricks and Stones. Frame structures and different strategies to make them Earthquake Resistant Buildings. Passive Design: Understanding of making buildings less energy consuming at schematic and planning level. Understanding Sun-path and possible wind flows to gain more natural sunlight and winds (Air-circulation) inside the building. Zoning of the building and fragmentation (Scooping) of the building is done too achieve maximum day-light and cross ventilation.</p> |   |          |          |
| Expected Outcomes:   |   |          |          |
| Students are designing G+1 Bungalow in Load-bearing (Submission 1) and RCC (Submission 2) frame structures as Earthquake resistant structure. The are showing different Earthquake resistant remedies in plan, section, elevations and working details. By understanding sun-path and possible wind directions, the same bungalow plan is zoned and scooped out (fragmented) to get more Day-light and cross ventilation. (Submission 3)   |   |          |          |

The interested students can apply for these courses by contacting certificate course coordinator **Ar.Anmol Warang** or **respective class incharges of the semester before 16 April 2021**. The certificate of completion\* shall be issued by the institute for the students after successful completion of course.

Principal

\*Terms and conditions apply.

Page 1 of 8

**RULES AND REGULATIONS FOR THE CERTIFICATE COURSES OFFERED FOR  
FIVE YEARS FULL TIME B.ARCH. PROGRAM**

**A. Eligibility Criteria**

1. Participants should be bonafide students of L. S. Raheja School of architecture and has an active enrollment status in the five years full time B. Arch Program.
2. Participants should be in the semesters of studies as a fresh attempt. (i.e. repeaters and/or ATKT students are not eligible for the participation in certificate course program)
3. Repeater and/or ATKT students are eligible to attend the certificate courses.

**B. Certificate Course Completion Criteria**

1. Participants should maintain minimum of 75% of attendance
2. Participants should score at least 50% marks in all the assignments
3. Participants should fulfill criteria B1 and B2 in one attempt only.
4. Participants who will not fulfill the criteria B1 and B2 shall not be granted a certificate of completion. However, after upgradation of the work such participants shall receive sessional marks and due course credits.
5. Participants who fall under the criteria A3 shall not be granted a certificate of completion. However, such participants shall receive sessional marks and due course credits.

| Course Code   | BARE121 ELECTIVES SR                           |          |          |
| Course Name   | <b>Architectural Sketching &amp; Rendering</b> |          |          |
| Course Instructor   | Ar. Prachitee Lad, Ar. Mukund Dalvi            |          |          |
| Year of Studies   | 1st Year B. Arch                               | Semester | I        |
| Max. no. of Students  | 90   | Duration | 12 Weeks |
| Course Content  |  |          |          |
| The aim of this course is to make students aware about the various hand rendering techniques which can be used to enhance the presentation of the architectural drawings. |  |          |          |
| Expected Outcomes   |  |          |          |
| Students are expected to render the given architectural sketch/design in various mediums of rendering taught in the studio.   |  |          |          |

|   |                       |          |          |

| Course Code   | BARE221 ELECTIVES AB  |          |          |
| Course Name   | <b>AutoCAD Basics</b> |          |          |
| Course Instructor   | Ar. Gargi Karve       |          |          |
| Year of Studies   | 1st Year B. Arch      | Semester | II       |
| Max. no. of Students  | 90                    | Duration | 12 Weeks |
| Course Content  |                       |          |          |
| The Electives is intended to introduce a software - AutoCAD which performs as a drafting aid to Architect & designers in their academic and professional life. Not only the interface and commands are part of the subject, but also methodologies of optimising time and precision are an essential part of the course.. |                       |          |          |
| Expected Outcomes   |                       |          |          |
| The students at the end of the course are expected to be able to use the software in design and other subjects and develop their skills during the course.  |                       |          |          |

|   |  |          |          |

| Course Name   | <b>Architectural Softwares- AutoCAD and SketchUP</b> |          |          |
| Course Instructor   | Ar. Deepa Desai, Ar. Ninad Sansare                   |          |          |
| Year of Studies   | 2nd Year B. Arch                                     | Semester | III      |
| Max. no. of Students  | 95   | Duration | 14 Weeks |
| Course Content  |  |          |          |
| Learning architectural softwares is an essential skill set for contemporary architectural practices. Learning AutoCAD for the complex architectural drafting and SketchUP for the digital 3D form modulation enhances the creative ability of architectural students to understand space. This course aims to study basic and advanced commands for AutoCAD and SketchUP. |  |          |          |
| Expected Outcomes   |  |          |          |
| Students are expected to produce computer aided 2D and 3D drawings for a small residential house designed in their previous semester.   |  |          |          |

Bombay Suburban Art and Craft Education Society's

| Course Code  | BARE421 ELECTIVES AM                                      |          |          |
| Course Name  | <b>Analytical method for architectural case studies</b>   |          |          |
| Course Instructor  | Ar. Ninad Sansare, Ar. Deepa Desai, Ar. Niropama S Sawant |          |          |
| Year of Studies  | 2nd Year B. Arch  | Semester | IV       |
| Max. no. of Students   | 95  | Duration | 14 Weeks |
| Course Content   |   |          |          |
| A case study is a process of researching into a project and documenting through writings, sketches, diagrams, and photos. To understand the various aspects of designing and constructing a building one must consider learning from other people's mistakes. This course aims to develop a critical understanding of architectural case study as a method and to apply it for the design program. |   |          |          |
| Expected Outcomes  |   |          |          |
| Students are expected to submit methodologically approached architectural case studies to draw lessons for the design program.   |   |          |          |

|   |                                     |          |          |

| "Citymaking requires drawing together the strands of physical place, society and economy. Architects and urban planners deliver us a framework for streets, spaces and buildings, but it is the content, the activity, the people and the exchange of ideas, services and goods that ultimately makes the city. In this course students will learn the basics of city making. |                                     |          |          |
| Expected Outcomes   |                                     |          |          |
| Students are expected to develop a small version of a city by using all the learning from the lectures  |                                     |          |          |

|  |                       |          |          |

| Year of Studies  | 3rd Year B. Arch      | Semester | VI       |
| Max. no. of Students   | 20                    | Duration | 16 Weeks |
| Course Content   |                       |          |          |
| A street is the basic unit of urban space through which people experience a city. It is often misconceived as the two-dimensional surface that vehicles drive on when moving from one place to another. Streets are, in fact, multidimensional spaces consisting of many surfaces and structures. This course aims to provide students with a comprehensive understanding about urban streets. |                       |          |          |
| Expected Outcomes  |                       |          |          |
| Small assignments based on observations and analysis of students' own urban neighbourhood would be expected.   |                       |          |          |

Bombay Suburban Art and Craft Education Society's

| Course Content  |                              |          |          |
| This course aims to introduce basics of heritage conservation in architectural practice. And will enable students to understand various methods of heritage conservation.           |                              |          |          |
| Expected Outcomes   |                              |          |          |
| Students are expected to Identify and Map the existing heritage in the neighbourhoods of Mumbai . Based on that they are expected to generate representation drawings for the same. |                              |          |          |

|   |                              |          |          |
|---|------------------------------|----------|----------|
| Course Code   | BARE621 ELECTIVES AF         |          |          |
| Course Name   | <b>Architectural Fiction</b> |          |          |
| Course Instructor   | Ar. Mildred Jose             |          |          |
| Year of Studies   | 3rdYear B. Arch              | Semester | VI       |
| Max. no. of Students  | 20                           | Duration | 16 Weeks |
| Course Content  |                              |          |          |
| Cities are impregnated with memory, association, recall and resonance. They express multiple stories, meanings with evolving spatial forms and urban compositions.As 'Storytelling' is about the construction of stories by setting up a time-line of events, design is based on the 'physical narration' by organising spatial relationships. The elective focuses on building up an analogy of city building between these two processes of 'story telling' and 'spatial design'. |                              |          |          |
| Objectives and Expected Outcomes  |                              |          |          |
| 1) To enable one to be familiar with representing literary texts and vice versa 2) To be able to apply critical and theoretical approaches to analysis of literary texts 3) To identify, interpret ideas/themes that impact the future 4) To adapt to new mediums to create multi-layered interactive stories/ experiences by a multitude of inputs   |                              |          |          |

|  |                        |          |          |
|--|------------------------|----------|----------|
| Course Code  | BARE621 ELECTIVES DL   |          |          |
| Course Name  | <b>Daylighting</b>     |          |          |
| Course Instructor  | Ar. Swanand Mahashabde |          |          |
| Year of Studies  | 3rdYear B. Arch        | Semester | VI       |
| Max. no. of Students   | 20                     | Duration | 16 Weeks |
| Course Content   |                        |          |          |
| The elective course introduces students to the use of daylighting in architecture space with help of basic simulation techniques   |                        |          |          |
| Expected Outcomes  |                        |          |          |
| Understand the importance of daylighting in building design. Understanding use of natural light through works of master architects. understand design solutions through analysis with basic software |                        |          |          |

Bombay Suburban Art and Craft Education Society's  
**L. S. RAHEJA SCHOOL OF ARCHITECTURE**

|---|--|----------|----------|
| Course Code   | BARE721 ELECTIVES GL                                   |          |          |
| Course Name   | <b>Effective use of Glass in the Built Environment</b> |          |          |
| Course Instructor   | Ar. Mridula Pillai, Ar. Anuj Gudekar                   |          |          |
| Year of Studies   | 4th Year B. Arch                                       | Semester | VII      |
| Max. no. of Students  | 50   | Duration | 12 Weeks |
| <b>Course Content</b>   |  |          |          |
| <p>Understanding the manufacturing process of glass , so as to understand the embodied energy in its manufacture. Factors affecting the choice of Glass in the built environment through the point of view of various stakeholders. Understand the Mechanical, Thermal &amp; optical properties of glass.</p> <p>Understanding the Value Addition to the Glass- Tints, Coatings, fretting, toughening and lamination.</p> <p>Understanding the Glazing types.</p> <p>Energy Performance of Coated Glass for various Glazing types and comparison with the ECBC standards. understanding the choice and assembly of glazing type through LBNL's Window software.</p> |  |          |          |
| <b>Expected Outcomes</b>  |  |          |          |
| <p>Students are taught to choose the glazing type for various climatic conditions, based on the data available through the LBNL's Window software.</p> <p>Using the data set from the above mentioned exercise is further used to analyse the performance in a conventional building using the spreadsheet calculations. These calculations take into account a Window to Wall Ratio (WWR) for all the cardinal directions. In addition these parameters are isolated to check the change in the building performance for the cooling loads.</p>  |  |          |          |

| Course Code   | BARE921 ELECTIVES ER  |          |          |
| Course Name   | <b>Earthquake Resistant Architecture and Passive design</b> |          |          |
| Course Instructor   | Ar. Sachin Prabhu   |          |          |
| Year of Studies   | 5th Year B. Arch  | Semester | IX       |
| Max. no. of Students  | 20  | Duration | 12 Weeks |
| Course Content:   |   |          |          |
| <p>Understanding of Earthquake, Why Earthquakes on planet Earth? Measurements of Earthquake shakings, Analysis of Last Century Earthquakes in India, Understanding effect of Earthquakes on buildings with respect to their strength. Design strategies to make Earthquake Resistant buildings. Load bearing structures in Bricks and Stones. Frame structures and different strategies to make them Earthquake Resistant Buildings. Passive Design: Understanding of making buildings less energy consuming at schematic and planning level. Understanding Sun-path and possible wind flows to gain more natural sunlight and winds (Air-circulation) inside the building. Zoning of the building and fragmentation (Scooping) of the building is done to achieve maximum day-light and cross ventilation.</p> |   |          |          |
| Expected Outcomes:  |   |          |          |
| <p>Students are designing G+1 Bungalow in Load-bearing (Submission 1) and RCC (Submission 2) frame structures as Earthquake resistant structures. They are showing different Earthquake resistant remedies in plan, section, elevations and working details. By understanding sun-path and possible wind directions, the same bungalow plan is zoned and scooped out (fragmented) to get more Day-light and cross ventilation. (Submission 3)</p>   |   |          |          |

| Course Content  |   |          |          |
| <p>Redevelopment implies demolition of existing structure and building completely new structure. It is the most widely used tool for the upgradation of infrastructure and urban regeneration in Mumbai. The elective on Redevelopment discusses the importance of thoughtful redevelopment through an understanding of processes, rules and regulations, current trends and practices, etc.</p> <p>The student participants gain knowledge of various aspects that impact and issues that plague the redevelopment system.</p> |   |          |          |
| Expected Outcomes   |   |          |          |
| <ol style="list-style-type: none"> <li>1. Understand the processes, rules and regulations governing the redevelopment of buildings in Mumbai.</li> <li>2. Understand various clauses and sections of the MCGM DCPR 2034,</li> <li>3. Gain knowledge about the historic development of Mumbai and the impact of past development strategies on the current status of Redevelopment.,</li> <li>4. Understand financial feasibility calculations to infer the possibility of success for redevelopment projects.</li> </ol>        |   |          |          |

| 8   | BARE621 ELECTIVES DD  | Dissecting discourses                                | VI       | 14 Week  |
| 9   | BARE621 ELECTIVES DL  | Daylighting  | VI       | 12 Week  |
| 10  | BARE721 ELECTIVES GL  | Effective use of Glass in the Built Environment      | VII      | 16 Week  |
| 11  | BARE921 ELECTIVES AL  | Advanced Landscape                                   | IX       | 12 Week  |
| 12  | BARE921 ELECTIVES CM  | Introduction to Construction Management              | IX       | 16 Week  |
| 13  | BARE921 ELECTIVES ER  | Earthquake Resistant Architecture and Passive design | IX       | 12 Week  |
| 14  | BARE921 ELECTIVES HC  | Heritage Conservation                                | IX       | 12 Week  |
| 15  | BARE921 ELECTIVES RF  | Redevelopment & Feasibility                          | IX       | 12 Week  |
| 16  | BARE1021 ELECTIVES PA | Comprehensive Project Assessment                     | X        | 12 Week  |

The interested students can apply for these courses by contacting certificate course coordinator **Ar.Anmol Warang** or respective class incharges of the semester before **15 April 2020**. The certificate of completion\* shall be issued by the institute for the students after successful completion of course.

  
Principal

\*Terms and conditions apply.

Page 1 of 8

**RULES AND REGULATIONS FOR THE CERTIFICATE COURSES OFFERED FOR  
FIVE YEARS FULL TIME B.ARCH. PROGRAM**

**A. Eligibility Criteria**

1. Participants should be bonafide students of L. S. Raheja School of architecture and has an active enrollment status in the five years full time B. Arch Program.
2. Participants should be in the semesters of studies as a fresh attempt. (i.e. repeaters and/or ATKT students are not eligible for the participation in certificate course program)
3. Repeaters and/or ATKT students are eligible to attend the certificate courses.

**B. Certificate Course Completion Criteria**

1. Participants should maintain minimum of 75% of attendance
2. Participants should score at least 50% marks in all the assignments
3. Participants should fulfill criteria B1 and B2 in one attempt only.
4. Participants who will not fulfill the criteria B1 and B2 shall not be granted a certificate of completion. However, after upgradation of the work such participants shall receive sessional marks and due course credits.
5. Participants who fall under the criteria A3 shall not be granted a certificate of completion. However, such participants shall receive sessional marks and due course credits.

**Details of Certificate Courses for Academic Year 2020-21**

|   |  |          |          |
|---|--|----------|----------|
| Course Code   | BARE121 ELECTIVES SR                           |          |          |
| Course Name   | <b>Architectural Sketching &amp; Rendering</b> |          |          |
| Course Instructor   | Ar. Mukund dalvi                               |          |          |
| Year of Studies   | 1st Year B. Arch                               | Semester | I        |
| Max. no. of Students  | 90   | Duration | 12 Weeks |
| Course Content  |  |          |          |
| Architectural sketching & rendering is the process of creating two-dimensional and three-dimensional images of a proposed architectural design. The aim of this course is to make students aware about the various hand rendering techniques which can be used to enhance the presentation of the architectural drawings. |  |          |          |
| Expected Outcomes   |  |          |          |
| Students are expected to render the given architectural sketch/design in various mediums of rendering taught in the studio.   |  |          |          |

|  |                                   |          |          |
|--|-----------------------------------|----------|----------|
| Course Code  | BARE221 ELECTIVES SK              |          |          |
| Course Name  | <b>Learning through Sketching</b> |          |          |
| Course Instructor  | Ar. Prachitee Lad                 |          |          |
| Year of Studies  | 1st Year B. Arch                  | Semester | II       |
| Max. no. of Students   | 90                                | Duration | 12 Weeks |
| Course Content   |                                   |          |          |
| The core intent of the course is to encourage visualisation and observation in the everyday object. The chosen object was further disassembled to understand the mechanism and fixity. |                                   |          |          |
| Expected Outcomes  |                                   |          |          |
| The assembly of the chosen object was illustrated as an exploded isometric view. In addition the components were rendered based on the materials and textures                          |                                   |          |          |

|   |  |          |          |
|---|--|----------|----------|
| Course Code   | BARE321 ELECTIVES AS                                 |          |          |
| Course Name   | <b>Architectural Softwares- AutoCAD and SketchUP</b> |          |          |
| Course Instructor   | Ar. Deepa Desai, Ar. Ninad Sansare                   |          |          |
| Year of Studies   | 2nd Year B. Arch                                     | Semester | III      |
| Max. no. of Students  | 90   | Duration | 14 Weeks |
| Course Content  |  |          |          |
| Learning architectural softwares is an essential skill set for contemporary architectural practices. Learning AutoCAD for the complex architectural drafting and SketchUP for the digital 3D form modulation enhances the creative ability of architectural students to understand space. This course aims to study basic and advanced commands for AutoCAD and SketchUP. |  |          |          |
| Expected Outcomes   |  |          |          |
| Students are expected to produce computer aided 2D and 3D drawings for a small residential house designed in their previous semester.   |  |          |          |

Bombay Suburban Art and Craft Education Society's  
**L. S. RAHEJA SCHOOL OF ARCHITECTURE**

|   |                         |          |          |

| Course Instructor   | Ar. Ninad Sansare, Ar. Deepa Desai            |          |          |
| Year of Studies   | 2nd Year B. Arch                              | Semester | IV       |
| Max. no. of Students  | 50  | Duration | 14 Weeks |
| Course Content  |   |          |          |
| The representation of space in film is sculpted from the narrative, a meaningful construction of emotional space within the context of the story. Similar to experiencing a real space, a film's sophisticated language has the ability to transport the audience to the time and place of the story. This course aims to study space depicted in films to understand the narrative and its relation to the architectural representation. |   |          |          |
| Expected Outcomes   |   |          |          |
| Students are expected to create a presentation inspired by the given film's narrative with an innovative architectural representation style to convey the same.   |   |          |          |

|  |                           |          |          |
|--|---------------------------|----------|----------|
| Course Code  | BARE521 ELECTIVES CS      |          |          |
| Course Name  | <b>Climate Simulation</b> |          |          |
| Course Instructor  | Ar. Swanand Mahashabde    |          |          |
| Year of Studies  | 3rd Year B. Arch          | Semester | V        |
| Max. no. of Students   | 60                        | Duration | 12 Weeks |
| Course Content   |                           |          |          |
| This elective course is an extension to the subject of EVS and introduces basic climate simulations as a means to implement EVS learning from semester 1 till 3. |                           |          |          |
| Expected Outcomes  |                           |          |          |
| Students learn on how to draw inferences from climate data and charts. Learn basic simulation for natural ventilation, shadow analysis and insolation analysis   |                           |          |          |

Bombay Suburban Art and Craft Education Society's

| Course Instructor  | Ar. Charvi Kamat, Ar. Mugdha Bakade |          |          |
| Year of Studies  | 3rdYear B. Arch                     | Semester | VI       |
| Max. no. of Students   | 20                                  | Duration | 14 Weeks |
| Course Content   |                                     |          |          |
| Expose the students to all sorts of learnings available out there; in the form of various media; so that the student's understanding can be informed based on facts that they have uncovered and not depend on others for their opinion.                         |                                     |          |          |
| Expected Outcomes  |                                     |          |          |
| The elective is structured in such a way that it will enhance the student's way of thinking and self expression. Students will be involved in various exercises that will help them present their ideas, understanding and informed opinions in a better manner. |                                     |          |          |

|  |                              |          |          |
|--|------------------------------|----------|----------|
| Course Code  | BARE621 ELECTIVES AF         |          |          |
| Course Name  | <b>Architectural Fiction</b> |          |          |
| Course Instructor  | Ar. Mildred Jose             |          |          |
| Year of Studies  | 3rdYear B. Arch              | Semester | VI       |
| Max. no. of Students   | 20                           | Duration | 16 Weeks |
| Course Content   |                              |          |          |
| Cities are impregnated with memory, association, recall and resonance. They express multiple stories, meanings with evolving spatial forms and urban compositions. As 'Storytelling' is about the construction of stories by setting up a time-line of events, design is based on the 'physical narration' by organising spatial relationships. The elective focuses on building up an analogy of city building between these two processes of 'story telling' and 'spatial design'. |                              |          |          |
| Objectives and Expected Outcomes   |                              |          |          |
| 1) To enable one to be familiar with representing literary texts and vice versa 2) To be able to apply critical and theoretical approaches to analysis of literary texts 3) To identify, interpret ideas/themes that impact the future 4) To adapt to new mediums to create multi-layered interactive stories/ experiences by a multitude of inputs  |                              |          |          |

|  |                        |          |          |
|--|------------------------|----------|----------|
| Course Code  | BARE621 ELECTIVES DL   |          |          |
| Course Name  | <b>Daylighting</b>     |          |          |
| Course Instructor  | Ar. Swanand Mahashabde |          |          |
| Year of Studies  | 3rdYear B. Arch        | Semester | VI       |
| Max. no. of Students   | 20                     | Duration | 12 Weeks |
| Course Content   |                        |          |          |
| The elective course introduces students to the use of daylighting in architecture space with help of basic simulation techniques   |                        |          |          |
| Expected Outcomes  |                        |          |          |
| Understand the importance of daylighting in building design. Understanding use of natural light through works of master architects. understand design solutions through analysis with basic software |                        |          |          |

| Course Code   | BARE721 ELECTIVES GL                                   |          |          |
| Course Name   | <b>Effective use of Glass in the Built Environment</b> |          |          |
| Course Instructor   | Ar. Mridula Pillai                                     |          |          |
| Year of Studies   | 4th Year B. Arch                                       | Semester | VII      |
| Max. no. of Students  | 70   | Duration | 12 Weeks |
| Course Content  |  |          |          |
| <p>Understanding the manufacturing process of glass , so as to understand the embodied energy in its manufacture. Factors affecting the choice of Glass in the built environment through the point of view of various stakeholders. Understand the Mechanical, Thermal &amp; optical properties of glass.</p> <p>Understanding the Value Addition to the Glass- Tints, Coatings, fretting, toughening and lamination.</p> <p>Understanding the Glazing types.</p> <p>Energy Performance of Coated Glass for various Glazing types and comparison with the ECBC standards. understanding the choice and assembly of glazing type through LBNL's Window software.</p> |  |          |          |
| Expected Outcomes   |  |          |          |
| <p>Students are taught to choose the glazing type for various climatic conditions, based on the data available through the LBNL's Window software.</p> <p>Using the data set from the above mentioned exercise is further used to analyse the performance in a conventional building using the spreadsheet calculations. These calculations take into account a Window to Wall Ratio (WWR) for all the cardinal directions. In addition these parameters are isolated to check the change in the building performance for the cooling loads.</p>  |  |          |          |
| Course Code   | BARE921 ELECTIVES CM                                   |          |          |
| Course Name   | <b>Introduction to Construction Management</b>         |          |          |
| Course Instructor   | Ar. Meghana Patil                                      |          |          |
| Year of Studies   | 5th Year B. Arch                                       | Semester | IX       |
| Max. no. of Students  | 20   | Duration | 16 Weeks |
| Course Content  |  |          |          |
| <ol style="list-style-type: none"> <li>1. Roles and responsibilities of a construction manager</li> <li>2. Project delivery methods, types of projects and scales of projects.</li> <li>3. Management of money, time, men, material and machinery.</li> <li>4. Learning about various planning techniques. PERT &amp; Critical Path Method (CPM)</li> <li>5. Risk evaluation, mitigation and management</li> <li>6. Learning about bids, negotiations and tendering methods</li> <li>7. The importance of avoiding and learning from mistakes. Impact of global and national policies on project planning and business</li> </ol>                                   |  |          |          |
| Expected Outcomes   |  |          |          |
| <p>Students form groups of 4-6 students each. Each group selects a small/medium-scale live architectural/ interior execution project for study. They are to identify all the discussed factors that a Construction manager deals with; within their projects and represent the information graphically. They shall analyse and present aspects of time, money, man management, material and machinery assessment.</p>   |  |          |          |

| Course Code   | BARE921 ELECTIVES ER  |          |          |
| Course Name   | <b>Earthquake Resistant Architecture and Passive design</b> |          |          |
| Course Instructor   | Ar. Sachin Prabhu   |          |          |
| Year of Studies   | 5th Year B. Arch  | Semester | IX       |
| Max. no. of Students  | 20  | Duration | 12 Weeks |
| Course Content:   |   |          |          |
| <p>Understanding of Earthquake, Why Earthquakes on planet Earth? Measurements of Earthquake shakings, Analysis of Last Century Earthquakes in India, Understanding effect of Earthquakes on buildings with respect to their strength. Design strategies to make Earthquake Resistant buildings. Load bearing structures in Bricks and Stones. Frame structures and different strategies to make them Earthquake Resistant Buildings. Passive Design: Understanding of making buildings less energy consuming at schematic and planning level. Understanding Sun-path and possible wind flows to gain more natural sunlight and winds (Air-circulation) inside the building. Zoning of the building and fragmentation (Scooping) of the building is done to achieve maximum day-light and cross ventilation.</p> |   |          |          |
| Expected Outcomes:  |   |          |          |
| <p>Students are designing G+1 Bungalow in Load-bearing (Submission 1) and RCC (Submission 2) frame structures as Earthquake resistant structures. They are showing different Earthquake resistant remedies in plan, section, elevations and working details. By understanding sun-path and possible wind directions, the same bungalow plan is zoned and scooped out (fragmented) to get more Day-light and cross ventilation. (Submission 3)</p>   |   |          |          |

| Course Content  |  |          |          |
| Redevelopment implies demolition of existing structure and building completely new structure. It is the most widely used tool for the upgradation of infrastructure and urban regeneration in Mumbai. The elective on Redevelopment discusses the importance of thoughtful redevelopment through an understanding of processes, rules and regulations, current trends and practices, etc. The student participants gain knowledge of various aspects that impact and issues that plague the redevelopment system. |  |          |          |
| Expected Outcomes   |  |          |          |
| 1) Understand the processes, rules and regulations governing the redevelopment of buildings in Mumbai.<br>2) Understand various clauses and sections of the MCGM DCPR 2034. 3) Gain knowledge about the historic development of Mumbai and the impact of past development strategies on the current status of Redevelopment.,<br>4) Understand financial feasibility calculations to infer the possibility of success for redevelopment projects.   |  |          |          |

| 11  | BARE921 ELECTIVES HC | Heritage Conservation                           | IX       | 16 Week  |
| 12  | BARE921 ELECTIVES PM | Project Management                              | IX       | 16 Week  |
| 13  | BARE921 ELECTIVES RF | Redevelopment & Feasibility                     | IX       | 16 Week  |

The interested students can apply for these courses by contacting certificate course coordinator **Ar. Meghana Patil** or **respective class incharges of the semester** before **15 April 2019**. The certificate of completion\* shall be issued by the institute for the students after successful completion of course.

Principal

\*Terms and conditions apply.

Page 1 of 7

**RULES AND REGULATIONS FOR THE CERTIFICATE COURSES OFFERED FOR  
FIVE YEARS FULL TIME B.ARCH. PROGRAM**

**A. Eligibility Criteria**

1. Participants should be bonafide students of L. S. Raheja School of architecture and has an active enrollment status in the five years full time B. Arch Program.
2. Participants should be in the semesters of studies as a fresh attempt. (i.e. repeaters and/or ATKT students are not eligible for the participation in certificate course program)
3. Repeaters and/or ATKT students are eligible to attend the certificate courses.

**B. Certificate Course Completion Criteria**

1. Participants should maintain minimum of 75% of attendance
2. Participants should score at least 50% marks in all the assignments
3. Participants should fulfill criteria B1 and B2 in one attempt only.
4. Participants who will not fulfill the criteria B1 and B2 shall not be granted a certificate of completion. However, after upgradation of the work such participants shall receive sessional marks and due course credits.
5. Participants who fall under the criteria A3 shall not be granted a certificate of completion. However, such participants shall receive sessional marks and due course credits.

## L. S. RAHEJA SCHOOL OF ARCHITECTURE

### Details of Certificate Courses for Academic Year 2019-20

|   |                             |          |          |
|---|-----------------------------|----------|----------|
| Course Code   | BARE121 ELECTIVES CS        |          |          |
| Course Name   | <b>Communication Skills</b> |          |          |
| Course Instructor   | Mr. Pillai                  |          |          |
| Year of Studies   | 1st Year B. Arch            | Semester | I        |
| Max. no. of Students  | 50                          | Duration | 16 Weeks |
| Course Content  |                             |          |          |
| Communication is defined as the ability to convey or share ideas and feelings effectively. In Architectural practice narrative building is an essential process to justify and convey the intent and impact of architectural design. This course aims to provide students with a foundational training regarding effective and eloquent communication skills. |                             |          |          |
| Expected Outcomes   |                             |          |          |
| Students are expected to participate in the class discussions and weekly individual assignments based on the various aspects of communication skills.   |                             |          |          |

|   |  |          |          |
|---|--|----------|----------|
| Course Code   | BARE121 ELECTIVES SR                           |          |          |
| Course Name   | <b>Architectural Sketching &amp; Rendering</b> |          |          |
| Course Instructor   | Ar. Mukund dalvi                               |          |          |
| Year of Studies   | 1st Year B. Arch                               | Semester | I        |
| Max. no. of Students  | 50   | Duration | 16 Weeks |
| Course Content  |  |          |          |
| Architectural sketching & rendering is the process of creating two-dimensional and three-dimensional images of a proposed architectural design. The aim of this course is to make students aware about the various hand rendering techniques which can be used to enhance the presentation of the architectural drawings. |  |          |          |
| Expected Outcomes   |  |          |          |
| Students are expected to render the given architectural sketch/design in various mediums of rendering taught in the studio.   |  |          |          |

|  |                                   |          |          |
|--|-----------------------------------|----------|----------|
| Course Code  | BARE221 ELECTIVES SK              |          |          |
| Course Name  | <b>Learning through Sketching</b> |          |          |
| Course Instructor  | Ar. Prachitee Lad                 |          |          |
| Year of Studies  | 1st Year B. Arch                  | Semester | II       |
| Max. no. of Students   | 40                                | Duration | 12 Weeks |
| Course Content   |                                   |          |          |
| The core intent of the course is to encourage visualisation and observation in the everyday object. The chosen object was further disassembled to understand the mechanism and fixity. |                                   |          |          |
| Expected Outcomes  |                                   |          |          |
| The assembly of the chosen object was illustrated as an exploded isometric view. In addition the components were rendered based on the materials and textures                          |                                   |          |          |

Bombay Suburban Art and Craft Education Society's  
**L. S. RAHEJA SCHOOL OF ARCHITECTURE**

|   |                                       |          |          |
|---|---------------------------------------|----------|----------|
| Course Code   | BARE221 ELECTIVES BA                  |          |          |
| Course Name   | <b>Bioclimatic approach to Design</b> |          |          |
| Course Instructor   | Ar. Neeta Sarode                      |          |          |
| Year of Studies   | 1st Year B. Arch                      | Semester | II       |
| Max. no. of Students  | 40                                    | Duration | 16 Weeks |
| Course Content  |                                       |          |          |
| The course is designed to sensitise students about the Bioclimatic approach to design. The students started off with case studies of animal/ bird homes from nature to understand how animals and birds design their shelters (burrows, nests etc.) in response to climate, activities, uses of the shelter, safety and survival etc. Later students were introduced to various parameters of Bioclimatic architecture. |                                       |          |          |
| Expected Outcomes   |                                       |          |          |
| Students are expected to do case studies of Bioclimatic architecture.   |                                       |          |          |

|  |                            |          |          |
|--|----------------------------|----------|----------|
| Course Code  | BARE221 ELECTIVES MN       |          |          |
| Course Name  | <b>Mechanism in Nature</b> |          |          |
| Course Instructor  | Ar. Sachin Vedak           |          |          |
| Year of Studies  | 1st Year B. Arch           | Semester | II       |
| Max. no. of Students   | 40                         | Duration | 12 Weeks |
| Course Content   |                            |          |          |
| Nature shows us its beautifully articulated mechanisms or systems which can withstand any kind of situation. This elective is based on the various types of naturally evolved mechanisms which have become a part of any living creature or have been created or constructed by a living creature. The idea of this course is to study these various mechanisms and use it for the benefits of the human race in the form of a shelter or as an extension. |                            |          |          |
| Expected Outcomes  |                            |          |          |
| Students are expected to make a 1:1 scale working model using the mechanisms which they have selected from nature to make shelter or an extension for themselves.  |                            |          |          |

| Max. no. of Students   | 60  | Duration | 16 Weeks |
| Course Content   |   |          |          |
| Learning architectural softwares is an essential skill set for contemporary architectural practices. Learning AutoCAD for the complex architectural drafting and SketchUP for the digital 3D form modulation enhances the creative ability of architectural students to understand space. This course aims to study basic commands for AutoCAD and SketchUP. |   |          |          |
| Expected Outcomes  |   |          |          |
| Students are expected to produce computer aided 2D and 3D drawings for a small residential house designed in their previous semester.  |   |          |          |

| Course Name   | <b>Effective use of Glass in the Built Environment</b> |          |          |
| Course Instructor   | Ar. Mridula Pillai                                     |          |          |
| Year of Studies   | 4th Year B. Arch                                       | Semester | VII      |
| Max. no. of Students  | 80   | Duration | 12 Weeks |
| <b>Course Content</b>   |  |          |          |
| <p>Understanding the manufacturing process of glass , so as to understand the embodied energy in its manufacture. Factors affecting the choice of Glass in the built environment through the point of view of various stakeholders. Understand the Mechanical, Thermal &amp; optical properties of glass.</p> <p>Understanding the Value Addition to the Glass- Tints, Coatings, fretting, toughening and lamination.</p> <p>Understanding the Glazing types.</p> <p>Energy Performance of Coated Glass for various Glazing types and comparison with the ECBC standards. understanding the choice and assembly of glazing type through LBNL's Window software.</p> |  |          |          |
| <b>Expected Outcomes</b>  |  |          |          |
| <p>Students are taught to choose the glazing type for various climatic conditions, based on the data available through the LBNL's Window software.</p> <p>Using the data set from the above mentioned exercise is further used to analyse the performance in a conventional building using the spreadsheet calculations. These calculations take into account a Window to Wall Ratio (WWR) for all the cardinal directions. In addition these parameters are isolated to check the change in the building performance for the cooling loads.</p>  |  |          |          |

| <p>Redevelopment implies demolition of existing structure and building completely new structure. It is the most widely used tool for the upgradation of infrastructure and urban regeneration in Mumbai. The elective on Redevelopment discusses the importance of thoughtful redevelopment through an understanding of processes, rules and regulations, current trends and practices, etc.</p> <p>The student participants gain knowledge of various aspects that impact and issues that plague the redevelopment system.</p> |  |          |          |
| Expected Outcomes   |  |          |          |
| <ol style="list-style-type: none"> <li>1. Understand the processes, rules and regulations governing the redevelopment of buildings in Mumbai.</li> <li>2. Understand various clauses and sections of the MCGM DCPR 2034.</li> <li>3. Gain knowledge about the historic development of Mumbai and the impact of past development strategies on the current status of Redevelopment.,</li> <li>4. Understand financial feasibility calculations to infer the possibility of success for redevelopment projects.</li> </ol>        |  |          |          |

Date: 30 March 2018

## NOTICE

Following are the certificate courses that will be offered during the **academic year 2018-19** by L. S. Raheja School of Architecture for the students enrolled in the 5 years full time **B. Arch.** program.

| List of Certificate Courses (A. Y. 2018-19) |                      |  |          |          |
|---|----------------------|--|----------|----------|
| Sr. No.                                     | Course Code          | Course Name  | Semester | Duration |
| 1   | BARE121 ELECTIVES CS | Communication Skills                                   | I        | 16 Week  |
| 2   | BARE121 ELECTIVES SR | Architectural Sketching & Rendering                    | I        | 16 Week  |
| 3   | BARE221 ELECTIVES CS | Communication Skills                                   | II       | 16 Week  |
| 4   | BARE221 ELECTIVES SR | Architectural Sketching & Rendering                    | II       | 16 Week  |
| 5   | BARE321 ELECTIVES CO | Computer Training Part 1 (Autocad)                     | III      | 16 Week  |
| 6   | BARE421 ELECTIVES CT | Computer Training Part 2 (Autocad)                     | IV       | 16 Week  |
| 7   | BARE521 ELECTIVES AP | Architectural photography                              | V        | 16 Week  |
| 8   | BARE521 ELECTIVES FC | Form and facade development through climate simulation | V        | 12 Week  |
| 9   | BARE621 ELECTIVES DL | Daylighting  | VI       | 12 Week  |
| 10  | BARE721 ELECTIVES GL | Effective Use of Glass in the Built Environment        | VII      | 16 Week  |
| 11  | BARE921 ELECTIVES HC | Heritage Conservation                                  | IX       | 16 Week  |
| 12  | BARE921 ELECTIVES RF | Redevelopment & Feasibility                            | IX       | 16 Week  |
| 13  | BARE921 ELECTIVES SD | Set Design   | IX       | 16 Week  |

The interested students can apply for these courses by contacting certificate course coordinator **Ar. Meghana Patil** or **respective class incharges of the semester** before **14 April 2018**. The certificate of completion\* shall be issued by the institute for the students after successful completion of course.

Principal

\*Terms and conditions apply.

**RULES AND REGULATIONS FOR THE CERTIFICATE COURSES OFFERED FOR  
FIVE YEARS FULL TIME B.ARCH. PROGRAM**

**A. Eligibility Criteria**

1. Participants should be bonafide students of L. S. Raheja School of architecture and has an active enrollment status in the five years full time B. Arch Program.
2. Participants should be in the semesters of studies as a fresh attempt. (i.e. repeaters and/or ATKT students are not eligible for the participation in certificate course program)
3. Repeater and/or ATKT students are eligible to attend the certificate courses.

**B. Certificate Course Completion Criteria**

1. Participants should maintain minimum of 75% of attendance
2. Participants should score at least 50% marks in all the assignments
3. Participants should fulfil criteria B1 and B2 in one attempt only.
4. Participants who will not fulfil the criteria B1 and B2 shall not be granted a certificate of completion. However, after upgradation of the work such participants shall receive sessional marks and due course credits.
5. Participants who fall under the criteria A3 shall not be granted a certificate of completion. However, such participants shall receive sessional marks and due course credits.

A handwritten signature in blue ink, consisting of stylized letters and a horizontal line.

| Course Instructor   | Ar. Mukund dalvi                               |          |          |
| Year of Studies   | 1st Year B. Arch                               | Semester | II       |
| Max. no. of Students  | 50   | Duration | 16 Weeks |
| Course Content  |  |          |          |
| Architectural sketching & rendering is the process of creating two-dimensional and three-dimensional images of a proposed architectural design. The aim of this course is to make students aware about the various hand rendering techniques which can be used to enhance the presentation of the architectural drawings. |  |          |          |
| Expected Outcomes   |  |          |          |
| Students are expected to render the given architectural sketch/design in various mediums of rendering taught in the studio.   |  |          |          |

| Year of Studies  | 2nd Year B. Arch                          | Semester | III      |
| Max. no. of Students   | 60  | Duration | 16 Weeks |
| Course Content   |   |          |          |
| Learning architectural softwares is an essential skill set for contemporary architectural practices. Learning AutoCAD for the complex architectural drafting and SketchUP for the digital 3D form modulation enhances the creativity of architectural students to understand space. This course aims to study basic commands for AutoCAD and SketchUP. |   |          |          |
| Expected Outcomes  |   |          |          |
| Students are expected to produce computer aided 2D and 3D drawings for a small residential house designed in their previous semester.  |   |          |          |

|  |   |          |          |

| Course Name  | <b>Effective use of Glass in the Built Environment</b> |          |          |
| Course Instructor  | Ar. Mridula Pillai                                     |          |          |
| Year of Studies  | 4th Year B. Arch                                       | Semester | VII      |
| Max. no. of Students   | 70   | Duration | 12 Weeks |
| <b>Course Content</b>  |  |          |          |
| <p>Understanding the manufacturing process of glass , so as to understand the embodied energy in its manufacture.<br/>           Factors affecting the choice of Glass in the built environment through the point of view of various stakeholders.<br/>           Understand the Mechanical, Thermal &amp; optical properties of glass.<br/>           Understanding the Value Addition to the Glass- Tints, Coatings, fretting, toughening and lamination.<br/>           Understanding the Glazing types.<br/>           Energy Performance of Coated Glass for various Glazing types and comparison with the ECBC standards.<br/>           understanding the choice and assembly of glazing type through LBNL's Window software.</p> |  |          |          |
| <b>Expected Outcomes</b>   |  |          |          |
| <p>Students are taught to choose the glazing type for various climatic conditions, based on the data available through the LBNL's Window software.<br/>           Using the data set from the above mentioned exercise is further used to analyse the performance in a conventional building using the spreadsheet calculations. These calculations take into account a Window to Wall Ratio (WWR) for all the cardinal directions. In addition these parameters are isolated to check the change in the building performance for the cooling loads.</p>   |  |          |          |

| 133     | JOSHI STUTI JAGDISH          | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 134     | KADAMI PRACHI SANJAY         | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 135     | KAKDE TANVI VINOD            | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 136     | KANAGRAJ BHARATHI            | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 137     | KANDALGAONKAR SHIVANI MILIND | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 138     | KHANNA YASHITA MANIT         | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 139     | KOTHARI HELI NITIN           | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 140     | KOTHARI RITIK MANAK          | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 141     | KULKARNI NEHA SATISH         | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 142     | KULKARNI SUPREEMA NITIN      | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 143     | LATKE NIKKET SANJAY          | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 144     | LUKKA ADITYA HITESH          | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 145     | MACHHI MONISH SANJAY         | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 146     | MADDULA MEGHNA SRINIVAS      | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 147     | MAGDUM SUYASH MAHAVEER       | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | UNSUCCESSFUL                | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | UNSUCCESSFUL                | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 1  |
| 148     | MAHADIK SAMIKSHA SANTOSH     | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 149     | MAHATKAR AYUSH               | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 150     | MAURYA SACHIN RAMPRIT        | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
| 151     | MENE NIDHEE PRAMOD           | 3rd Yr. B.Arch  | Architectural photography (BARE521 ELECTIVES AP) | SUCCESSFUL                  | Form and facade development through climate simulation (BARE521 ELECTIVES FC) | SUCCESSFUL                  | Daylighting (BARE621 ELECTIVES DL) | SUCCESSFUL                  | 3  |
